

Habitat Enhancement Program Application Form

Nature Saskatchewan offers a habitat enhancement program to improve habitat for Burrowing Owls, Piping Plovers, and Sprague’s Pipits. Habitat enhancement can take place through native seeding, wildlife-friendly fencing and/or alternative water development. The landowner provides 50% of the project cost. Projects are a 12 year agreement between Nature Saskatchewan and the landowner.

For Burrowing Owl projects:

Preferably areas adjacent to existing pasture within 3-5 km of Burrowing Owl nests active in the past 5 years, confirmed by Nature Saskatchewan staff, a Conservation Officer/agency, or a research biologist.

For Piping Plover projects:

Preferably areas adjacent to pasture, or designated as critical habitat, or with nesting plovers nearby in the current year or recent past, confirmed by Nature Saskatchewan staff, a Conservation Officer/agency, or a research biologist.

For Sprague’s Pipit projects:

Preferably areas adjacent to pasture with nesting pipits nearby in the current year or recent past, confirmed by Nature Saskatchewan staff, a Conservation Officer/agency, or a research biologist.

Assistance is subject to available funds and landowner participation within the above conditions.

Name: _____ Ph: _____ Fax: _____

Address: _____ Postal Code: _____

Land Location(s) of project: _____

RM: _____

Please fill out to the best of your ability:

Target species:

Burrowing Owl Piping Plover Sprague’s Pipit

Seeding to Native Pasture Yes No Acres to be Sown: _____

Water Development: Yes No **Fencing:** Yes No Length of Fence (miles): _____

- **(For seeding projects only)** Soil type (pH, salinity, nutrient level):

- If soil type is unknown, would you consider getting a soil test? Yes No

- **(For seeding projects only)** Species to be sown (% of each): _____

- Explanation of current situation:

- Intended Use (herd size, grazing style):

- **(For seeding projects only)** Herbicides used in past years on the ¼ section:_____

- **(For seeding projects only)** Weed species present in the last growing season?:

-Other important information to note:

Please sketch location and details of proposed project. Please include locations of Roads, Buildings, Prominent Features or Landmarks, Water Bodies, etc.

The large square above represents (check one):

¼ Section

One Section

Four Sections

Remember to include the land location in the description on the front page.

Please mail application to the **Stewards of Saskatchewan program**

at Nature Saskatchewan, 206-1860 Lorne St.

Regina, SK S4P 2L7 or fax to (306) 780-9263
