

# Last Mountain Bird Observatory

BIRD MONITORING and EDUCATION

Located in Last Mountain Regional Park  
On Last Mountain Lake  
(between Saskatoon and Regina, 15 km west of Govan)

Great facilities for spending a day.  
Nature trail, natural open areas, picnic sites and beach, campsites, pool, canteen.

**A rare opportunity for youth to see many bird species up close ...**  
to observe catching, handling and banding techniques,  
and to learn about our natural heritage.

We will provide a morning of opportunities for youth of all ages to learn through being involved with their hands, eyes and ears.

Youth can help bring captured birds to the banding station, and release birds once they are banded – a memorable experience to feel the bird burst from your hands!

Learn about species identification, bird migration, threats to bird populations, and how we are working to conserve birds.

**Earn Badges** related to Conservation, Birdwatching and the Outdoors.  
Fit a morning visit into **theme-based programs** around Nature and our Ecosystem.  
Organize afternoon activities around Hiking, Map & Compass and Nature activities.

The station is open May 9 -31, August and September.

To arrange a visit for your Girl Guides of Canada or Scouts Canada group,  
contact Nature Saskatchewan at  
306-780-9481 or 1-800-667-4668 (SK only).
